VAYNE'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS invaluable remedy for all diseases of the Throat and Lungs, has attained a celebrity from its unmistakable cures, never equalled by any other medicine. Other preparations have proved themselves valueless, and sometimes efficient notable diseases have yet so fully won the confidence of invalids as to warrant its cures. After years of trial in every climate, the results have indisputably shown its powers in mastering over bills dangerous diseases, which could yet be reached by the skillful of Physicians, Patients and the public generally.

The statements, not of obscure individuals, and of distant places, but of men who are known and respected throughout the country.

Prepared by Wistar Swayne, Jun., VALENTINE MOTT, of New York City, and

For sale by Druggists generally throughout the country.

Every measure to certify the value and efficacy of Wistar's Cherry Pectoral, which I consider a most acceptable cure, dreadful of the throat and lungs.

B. PERKINS, the venerable President of the Medical School of Philadelphia, of the extensively learned, and of the most extensively used in this section, where it has been unmistakable evidence of its happy effects in cases of consumption.

Dr. JNO. D. COCHRANE, a distinguished Physician of the English Church, writes to the Proprietor from Montreal, Canada, that he feels an unusual affection, for Cherry Pectoral. He has sold it for years, and that my knowledge of its effects, and its worth the attention of all patients.

Office Criteria from the well known Drug firm of Mr. Michigan, one of the largest dealers in the West, this case is from the Proprietor.

BLOOMFIELD, MICH., Dec. 10, 1849.

Sold in Immediately on receipt of your Cherry Wistar, I received a bottle to an acquaintance of mine, who thought to be near his end with quick consumption. He was then unable to rise from his bed, was extremely feeble. His friends believed he was in a state of decline, and that no medicine could do him any good. Your Cherry Pectoral has proved to them a most valuable remedy, for that of their friend was restored to health, and is now able to attend to his business. Yours, respectfully,

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I officiated in the Office of Commissioner of Patents, R. H. EDDY, Esq., of Rochester, has had business at the Patent Office, as Solicitor for procuring Patents. The business (few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success). I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office. The Wonder of the Age.

BEWARE OF IMPOSITION!

The Only Genuine and Original IS THE NORTH AMERICAN ELECTRIC WASHING FLUID,

For Washing in either Hard or Soft Water. This is the only genuine article, to be found in the world, and possesses double the power of any ever discovered, for washing clothes, at a trifling expense, doing away with washboards at all. In fact it seems to be the only complete washer's alone, or universal solvent; seemingly a real preparation, its operation being of the most washing character. A common sized washing will cost but one gill of this fluid, and half that quantity. It softens and removes the dirt, that no other use of the most brilliant whiteness, it is perfectly harmless in its operations as pure water, nothing will wear much longer than when washed by the common method of washing. This fluid is a powerful agent, in blanching, and in cases where soap is required, in paper hanging, painting milk utensils, cleaning windows and paint, and floors, in short, it is beyond a precedent, the most universal in the washing world.

CERTIFICATES. All Good Goods are rendered brighter when washed in this Fluid. Woolens are made to shrink, and thereby rendered much softer than the old way of washing.

The genuine unless the Labels contain the signature of the Proprietors.

The above article is warranted by the Manufacturers not to contain soda, lime, ammonia, but purified, or acids of any kind, but to be purely an elegant preparation of the most powerful character, possessing more than double the washing power of any other discovered, being perfectly harmless upon the most delicate fabrics, equally upon the most of the miserable articles which flood the market, and in many instances digest the people with fear that they are unwilling to try a good article, when it really is to be found. The proprietors only ask a fair trial of their article, and will gladly willing to forfeit any amount for a single case in any instance where it is found.

Real Estate for Sale.

THE undersigned will sell the following described Real Estate, situated at South Levant, in Penobscot County:

A single Saw-Mill, Lath and Stave Mill, nearly new, and in first rate repair.

A small Farm of about 25 acres of first rate land, all under good improvement, upon which there is a good house, and barn, and out-buildings, and well situated for a physician, merchant or mechanic.

A farm of about 50 acres of good land, some 150 rods from the mills at South Levant, with a small house on the same, and some improvements, together with a number of smaller lots in the village, well situated for building lots.

Also a good farm of about 50 acres near Weston's Mills in Levant, with good buildings thereon, very pleasantly situated.

A tract of 175 acres of wild land in the town of Hermon, about nine miles from Bangor on the new County road recently located and now being opened, from Etna, through Carmel and Hermon, to Bangor. This is an excellent tract of land for farming.

Also, a small convenient house and lot in Bangor, near the Levant road on Thomas' Hill, and near the Holland place.

The above property will be sold at good bargains and on favorable terms to purchasers. A portion of the purchase money will be required on the delivery of the deeds, and the remainder will be put on liberal time with notes secured by mortgage on the premises.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 1837.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier*, he continues to offer his services free of expense—in preparing Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters relating thereto. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally explaining their inventions*, and of consulting in respect thereto, *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of twelve years' practice, and extensive collection of rare works on Patents, and Patents of different countries, collected at much expense during the long time this office has been established, together with economy here kept of inventions patented at Washington, enable the subscriber to afford to inventors advantages of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I officiated in the Office of Commissioner of Patents, R. H. EDDY, Esq., of Rochester, had business at the Patent Office, as Solicitor for procuring Patents. MONDAY, JUNE 23, 1851.

☞ The number of those interested directly or remotely in whatever concerns the welfare of California is so large and the persons so widespread, that we have devoted a large space in our columns to-day to the particulars of the recent destructive fire at San Francisco and that at Stockton, believing that these particulars will prove as interesting as any matter with which our columns can be occupied.

We learn that Mr Wm H Dow, and also Robert Perkins, Jr, of this city, are among those whose property was saved from the fire San Francisco has been sadly unfortunate in the way of fires and the heart is particularly saddened at the loss of life which attended the destruction of so large a portion of the city—There are many touching incidents in the accounts we publish

☞ Hon. Elisha H Allen, Consul at the Sandwich Islands arrived at San Francisco, on 2d of May, in the U S Ship Vandalia In connection with this arrival we notice that the Alta Californian states that the Hawaiian government has decided to ask of the United States government to annex the Sandwich Islands to the United States and that an officer of the U. States is on his way to Washington with the request. There may be no connection between these two facts and yet their conjunction seems to suggest at least the probability of the return of Mr Allen to Washington on this delicate mission.

☞ Mrs Jane E Locke of Lowell Mass some time ago, made a magnificent picture in the possession of Robert Hooper, of Boston the subject of a poem It is entitled "The Two Marys at the Sepulchre" The picture was painted by Miss Adele Kindle of Brussels. The poem of Mrs Locke having been transferred to the lady artist, the latter sent to the lady poet an elegant copy of the original picture taken by herself. Such an interchange between sister artists affords a very pleasant incident to record. Mrs Locke has a new volume of poems in press.

☞ The St Louis (Miss) Intelligencer in relation to the next Presidency says, the Whig press of the West, with extraordinary unanimity is advocating out in favor of Millard Fillmore as its standard bearer in the next contest. In this State we think there will scarcely be any difference of opinion among the Whigs—The Cole Independent, the Pilot, the Journal, the Louisiana Record, and we believe other Whig journals, have already declared the preference for Mr. Fillmore

☞ We have received from the new apothecary store of Dr G F Sargent, in the corner of Smith's Block specimens of Babbit's Pennyroyal Staying Cream a most graceful article, in two forms, one potted and the other in roll. Also Washing Powder for the comfort and relief of the women, and much approved

☞ We have received from Messrs Ticknor & Co, Boston, Godey's Lady's Book for July. It is a beautiful and a pleasant number, and may be found at the bookstore of David Bugbee. We have received also from the same source Graham's Magazine for July, a rich number and very handsomely illustrated

☞ The Springfield Republican says the Carew Paper Manufacturing Co at South Hadley Falls, are boring an Artesian well to supply their mill with clear water. At the depth of 25 feet they have a stream above the capacity of an ordinary pump to discharge. It is intended to go down 100 feet This for the boring is through solid rock

☞ Mr Osgood Whittier, bricklayer, of Rockfield, in this State recently fell from the staging of a three story building in Worcester Mass, fracturing his skull and breaking his leg. It was feared he would no recover

☞ The Masonic Grand Chapter will hold its annual sessions in this city to-morrow at Masonic Hall We learn that there is to be a meeting of the encampment of Knights Templars this evening, and also of the Royal Arch Chapter

☞ Water is being introduced in Lowell by means of a large reservoir located about one mile out of the city It is forced thence down from the Merrimac by the power of the several mills It will be a great convenience to the citizens The pipes are nearly all laid

☞ Squirrels are uncommonly abundant about the city, but the Hedgehog boys most provokingly harrass and destroy them

Special Conscience "Boy, why did you take a mirror of my shingles on Sunday "Why, sir, mother wanted some kindling wood and I did not want to split wood on Sunday!"—Orono Signal

☞ Tacha Gove has obtained a verdict of $615 damages against David P Clark, of Hartland, Vt. for breach of marriage promise

☞ No less than 10,000 tons of ice have been imported during the past month into London from Norway

Essays on the Character and Influence of Washington. Boston James Munroe & Co 1851 pp 150

The great little volume is a translation by Geo S Hillard, Esq, of the Essays of Guizot, the French statesman and historian prefixed to his edition of Sparks's Life and Writings of Washington. The editor remarks in his preface, that nothing has ever appeared in Europe concerning Washington so accurate, so just and so profound as this essay—a judgment which, coming from the source it does should commend the work to general perusal. Every American student must of course feel no little curiosity to read what one of the most distinguished statesmen and scholars of Europe has to say of the great founder and father of our own republic.

Further from California.

We glean from the papers before us the following relative to the recent disastrous fire at San Francisco

The Alta Californian gives the following vivid picture of the conflagration

Iron and zinc curled up like scorched leaves and sent forth their brilliant flames of green, blue and yellow tints mingling with and modifying the great red tongues of fire which flashed upward from a thousand burning houses—The hillsides were lighted as if the sun were above the eastern mountains, and their trees, shrubs, herbage and houses were as distinguishable in the bright light as if it were noon—Darkness hung over a large portion of the shipping, where the broad and heavy portion of smoke lay down in impenetrable gloom People become paralyzed many removed their stocks of goods or portions of them, four or five times and had them overtaken and destroyed by the flames at last.

The streets were crammed with masses of human beings and rushing teams, only giving way before the advance of the elements as the smoke and heat and crashing walls pushed them back. Men became mad and semi-rushed headlong into the flames Weeping women and praying infants were wandering amid ashes and destruction Every few minutes the earth and air trembled as great buildings were torn to fragments by explosions of gunpowder and the atmosphere was filled with shattered timbers bricks and mortar The multitude hung upon the borders of this vast sea of flames Few comparatively, knew or could know what were the dangers and exertions of those who were within the range of the scathing and scorching flames In less than 9 hours from the commencement more than 50 squares existed only in name and in the surrounding columns of smoke and flame which covered the city pall

The bounds of the fire are as follows

Commencing on the south side of the Plaza on Clay street, it extended down to Kearney street along the east side of Kearney street to Jackson street down the south side of Jackson street to Montgomery street, along the east side of Montgomery to Pacific street down Pacific to Sansome street across Sansome to Broadway At this point it took another easterly direction to Vallejo street thence across Battery to the Bay

After striking the bay it followed the shores southerly along the west side of Battery to Long Wharf, which it burned down to Whitehall thence along the west side of Battery to California, up California to Sansome, along Sansome to Pine, up Pine to Montgomery along Montgomery to Sutter up Sutter to Kearney, along Kearney to Sacramento up Sacramento to Dupont, along Dupont to Clay, thence down Clay to the place of beginning

The burnt district within these limits is about three fourths of a mile from north to south by one third of a mile from east to west including 18 entire squares and parts of five or six others Every newspaper office except the Alta California was destroyed The Balance, News and the Herald however, saved a portion of their machinery

The following were injured, but none of them dangerously, we trust Capt Howard Mr Wells James King of W James Wilson, Mozery Norton Bernard Peyton and Mr Carrico Many of these gentlemen receive their injuries in consequence of staying too long in buildings they supposed fire proof and when they emerged they were compelled to fly for their lives often through the fiercest flames Mr Peyton and others only saved themselves by wrapping their blankets around them

The most terrible scene was enacted in the Iron House of Parrott & McGoldrick at the corner of Montgomery and Sacramento streets—It is this fire proof building that gave the flames first rushed it, in order to save some valuable articles They closed all the iron window shutters and doors, so that no draft of air might enter When they found the house getting too hot to stay longer they attempted to get out but it horrible to relate the windows and doors had expanded so with the heat that all their efforts were unable to open them and all within perished in the flames The circumscribed bones could be seen on Monday smoldering amid the ruins beneath

The splendid store of Cook Brothers & Co on California street opposite Adams & Co's Express office on Montgomery street stood the fate of the rest of the block in which it was in but they succeeded in saving their books papers and valuables, in the iron proof vault

In blowing up the Sacramento Hotel Broadway, the first explosion was ineffectual and it was thought that only one of the stores placed had ignited, and yet in this uncertainty a daring spirit was found who walked into the building, already on fire, and two more casks of powder fired the fuse and returned coolly In less than a minute after the huge building crumbled in to fragments on its own foundation

The mass of shipping that crowd our harbor was in imminent danger The store ships Natchez, Gen Harrison, and Apollo, were the only vessels destroyed

The Chief Engineer of the Fire Department and his assistant were both absent from the city on a pleasure trip to San Antonio consequently the engines were without a head to guide and direct them with authority Nearly 2500 buildings were burned

Unfortunately, this dire disaster befell our city on Saturday night, when but a few hours previous our Mayor and Aldermen had just left their respective offices while our new Mayor the new Common Council, and other new officers had not been sworn into office—Consequently they were not qualified to act by the authority of law and everything was at loose ends and the elements had full sway

The result is in every way disastrous to the city The Treasury is empty and San Francisco is virtually bankrupt We have no prisons wherein to confine the criminals and run wild in our midst do big evil continually The flames that everything here is sadly damaged and awful condition of Dewitt C Harrison in lieu of water, used 80,000 gallons of wine for in preserving their world house It was entirely saved The City Observatory, on the roof, burnt the out column during fire in the building

The Pubblic Balance originally started by Mr Burkerlen, has suspended The True Standard, so ably conducted by Eugene Casserly, our State printer is now making strong efforts to republish The Herald is in full blast again The Pacific News issued their paper as usual The Picayune lost everything It is said of Mr Shepherd, one of the proprietors that he never fled his property in his successful efforts to save the life of a newsboy, whom he picked up the street badly burned and disabled, as he was carrying off the books of his office

Mr Shepherd, it is said, threw down his books and placing the man on his shoulders carried him 1 Hter and wonder to a supposed place of safety, but finally driven off by the fire carried his victim to the hospital, and on his return to his office all was consumed. Mr J C Hamilton another of the proprietors has only just returned from the Legislature at San Jose, and informs me that he has not only lost his newspaper property, but all the money and papers (amounting to $10,000) which he had brought from the Capital—his whole winter's work in State Script, &c

The Courier too is used up—though the proprietors are making extraordinary efforts to resume the publication of this Whig organ.—The Sunday Clarion has been consumed

Thos Butler King, the collector was absent from the city up to the mines, at the time of the fire The Custom House building was entirely destroyed, with many valuable papers The Sub-Treasury is safe, and is daily guarded by an armed force of U S Marines There is $4 000 000 in the vault When the Custom House was threatened, Mr Cost, the Naval officer, appointed six gentlemen to superintend operations for the defence Every point was well guarded, and the building was not abandoned until the hope of saving it was out of the question Mr Cost himself was severely scorched in escaping, but we are happy to say his injuries though painful are not serious—he has been attending to business within the past few days as usual The building was owned by W H Davis, and rented for $36,000 per annum—his loss otherwise was very great

We are happy to be able to state, that General James Wilson of New Hampshire, who was severely burnt during the fire is improving daily His recovery promises to be as rapid as his friends could expect

A letter in a New York paper says

"Your readers will see by running their eye over the list of sufferers, that many who escaped destruction here are heavy losers at Stockton and not a few losers even in both cities

Not half of the names appear in the public prints many preferring to slip by unnoticed and unknown, Your city must be a heavy loser Also Boston in particular, as there are a greater number of Boston merchants here than from any other city in the Union and in the amount of exports to California Boston is only second to New York

Another correspondent writes

The destruction of property is certainly overwhelming and cannot be contemplated without feelings of extraordinary and overpowering emotion Thousands that were rich in the morning in goods on the evening of Saturday, May 3, were only at the dawn of Sabbath morning paupers and homeless

The loss of goods alone could not be replaced short of $5 000 000 and of buildings certainly as much more Three fourths of our merchants have lost their stores and goods, and not a few all The building used for assaying Ingots &c by Moffatt & Humbert, was totally consumed, and it will be six weeks before they will be able to resume business

Mr King the Collector, on his application to a wealthy firm for the new fire proof building until the new Cost in House could be erected offering $1000 per month or say $48 000 per annum for a five years lease This the firm declined demanding $60 000 per annum Thus it was that Collector King was muffled and I went of said for two years a brick gambling house on the plaza, called the Special for about $50 000 per annum In the current term go wild or what was going on and such a measure as referring him the building sought at even less than the annual offer but it was too late

Already quite a large number of cheap shanties have been erected for temporary occupancy Others again have recommenced the building of fine brick edifices, but our streets are made to run end—the planks of which they are made being burnt and rendered almost impassable In almost every instance the covering to the sewers was burnt off, leaving a huge ditch running along the middle of the streets The damage probably amounts to $60,000, and it will be many a day ere far before the city credit so woefully depressed by its disaster,—will be sufficient to repair them All day Monday and a part of Tuesday the fire was slowly consuming them

Another letter writer says— We have yet to hear of a single fire but this circumstance can only be explained by the fact that many of our merchants receive all their goods from a broad on consignment. Hence, the heaviest losses must of necessity fall on parties elsewhere and be scattered along the Atlantic coast from Maine to Texas—Mexico, and across to Liverpool, France, Spain Gerrany—in fact there is scarcely a spot on the face of the civil zed world but its inhabitants, either as merchants, traders, shippers or otherwise will be compelled to sustain a greater or less proportion of this awful destruction of property which can only be estimated by six millions Nothing than a mile square has been burned over and that too in the very heart of our city which may be truly called the city of the

Of those who suffer the greatest loss I may mention the names of J. Mickle & Co from Valparaiso, Stanley Brothers & Co, Langhan commission house J B Biddleman, of your city whose losses cannot end will alone exceed the sum of half a million of dollars

The vast shipping business of Long Wharf can be transferred to other parts of the city—Long Wharf was burnt till the way to Battery st and for that distance will have to be entirely rebuilt on the ruins of its former business

In the meantime Cunningham's and Pacific wharves are filled with business Steamers Sonora and New World have returned to their former berth on the former wharf The Pacific wharf was very slightly injured by the fire at its intersection with Sansome st This was at once repaired at the same time the stockholders made arrangements to carry it out into the bay with increased capacity It has already run back front and the water around it is now of sufficient depth to accommodate the largest vessels at the pier

Quite a large number of Chinese have arrived in San Francisco

Judging from the reports in the papers San Francisco is literally swarming with burglars incendiaries—rowdies and miscreants of all kinds The south states have great difficulty in returning the villains after they have arrested them

The Oregonian says

We have at length received late and reliable information from the mines from which it is settled that those that are engaged in the business are doing well making from $8 to $12 per day While some few are doing much better instances have occurred in which men have made $100

The Western Star comes dressed in mourning for the death of Hon Mr Thurston The Oregonian speaks highly of him

Citizens' 4th of July Meeting.

Agreeably to a call of the committee raised at a preliminary meeting, on Wednesday evening a large and respectable number of the citizens assembled at the City Hall on Saturday evening 21st inst to take into consideration the expediency of a public patriotic observance of the coming National Holiday

The meeting was called to order by Dr G W Ladd on whose nomination, Hon SAM L H BLAKE was chosen Chairman, and CHAS P ROBERTS Esq was chosen Secretary

Dr Ladd stated the object of the meeting and submitted the following report of the committee selected on Wednesday evening, —

The Committee appointed at a meeting held agreeable to previous notice to consider the importance of commemorating the Anniversary of our National Independence would respectfully submit to the meeting the following report —

That upon conferring with the Municipal authorities the Fire Department and their fellow citizens they find a general and earnest wish that the coming anniversary should be celebrated in a manner worthy of the day and occasion

The Committee, therefore, recommend that proper measures be taken to demonstrate our reverence for the memory and deeds of the men of the Revolution, our love for Union and Liberty by a public celebration and that a committee of thirteen be appointed to make all suitable arrangements to effect the object in such manner as the brief time allowed will now admit with full power to appoint all necessary committees

After enthusiastic and patriotic remarks by Messrs M L Appleton J F Rawson S L Dunsmore W C Crosby, Dr Ladd and others in support of the foregoing, it was unanimously accepted

The following Committee of Arrangements of thirteen contemplated by the report, was then appointed —

WILLIAM H MILLS
GORHAM L BOARDMAN,
JOHN SARGENT JR
SAMUEL H DAVIS
BENJ WRIGHT
MOSES L APPLETON
LORENZO MARCH
FRANKLIN MUZZY
JAMES F RAWSON,
ISAIAH SPITSON
MICHAEL BOYCE
GEORGE HACHAWAY,
HENRY A HEAD

An animated discussion followed in regard to instructing the Committee of Arrangements specially in regard to the manner in which the festival should be celebrated The discussion resulted in leaving it entirely to the good sense and judgment of the committee There was unanimous expression of the sense of the meeting however that the occasion should be celebrated in a patriotic manner Adj

SAM H BLAKE Chairman
C P ROBINSON Sec'y

☞ We are requested to state that Col Wm H Mills declines serving upon the committee of arrangements, appointed at the citizens meeting on Saturday evening on account of his private business It will become necessary therefore for the second gentleman named on the committee to act as chairman

In Board of Aldermen June 16th 1851

ON the application of M. Gilligan Henry F Skerry and others that a sewer of Bangor and resolve therein for a drain or Common Sewer to be made in said city commencing at the southerly line of Nathan Hall's dwelling house on State street as in said application is set forth

Ordered That the Mayor and Aldermen repair to the place designated in said application and examine the same and determine the necessity of said Drain or Common Sewer on the day the twenty seventh day of June at two o'clock in the afternoon

Ordered That in case the Mayor and Aldermen or a majority of the same who may be present at said meeting shall judge it expedient that such drain or sewer be made they will at the time and place of said meeting determine upon and allow such sum for damages if any are claimed, as in their opinion should be allowed as any claimant may be entitled to deducting the benefit to any person or persons if any shall be assessed as benefited by such drain or sewer, and the amount of such benefit, and will ascertain and assess a proportional part of the charge of making maintaining and repairing such drain or sewer to any and all persons who may be adjudged by an Alderman or Aldermen to be in any way benefitted thereby

Ordered, That notice to all persons through or over whose land said drain or sewer is to be placed be given by publishing an attested copy of said application of this and the foregoing orders thereon, one week, in the Bangor Daily Whig and Courier a newspaper printed in said city the first publication to be seven days at least before the time of said meeting

Sealed Proposals
WILL be received until *MONDAY, the 30th day of June*, addressed through the Post Office, Box No 21, Portland, Me., for supplying the Troops at this Post with fuel for the year ending June 30th, 1852, viz:
100 cords of Wood, and
100 tons of Coal.
The wood to be *good merchantable cord*, sound and straight sticks four feet long, crooked sticks to be rejected; the whole to be delivered before the 31st day of October next, and to be provided and measured on delivery, at such places on the public grounds at this Post, as the Act'g Asst. Quartermaster may direct.
Eighty tons of the coal to be the best Peach Mountain, and twenty tons the best Lehigh; all to be well broken and screened and weighed on delivery at this Post, before the 31st day of October next.
The Act. Asst. Quartermaster will be the sole judge of the quantity and quality of the fuel, and will be at liberty to reject the whole or such parts as he may think fit.
Two good securities will be required, whose names must accompany the proposals, which will be opened at Fort Preble, at 11 o'clock A. M., on the day above mentioned, when all interested can attend.
The proposals must be endorsed "Proposals for Fuel," and none will be received unless addressed, as above.

NO. 11 WEST MARKET SQUARE,

HAS the pleasure to inform his friends and customers that he has now in store and will open on the above date a large and well selected stock of Ready Made Clothing, which for style, quality and workmanship cannot be surpassed by any house in the city. Having purchased the greater part of his goods before the late advance in prices, he is enabled to offer his customers and the public generally a stock of goods at prices which will defy competition. Among his stock will be found a large variety of Cloths, Cassimeres and Vestings, which he will make to order at the shortest notice and in the most fashionable manner.

READY-MADE CLOTHING!

It is getting now to be well understood that those who would obtain the best fitting and most comfortable garments at the lowest prices should go to Wall's, where the best goods are found and the most tasteful workmanship is used in their fabrication. In this detail he must be the judge of what gives satisfaction, but he will pay the strictest attention to every article of his business, and will spare no pains to enable him to dress elegantly and durably, at a reasonable expense. This he can do with a new stock of Garments for the present season, which for variety, completeness and cheapness of prices, he thinks cannot be surpassed by any other house in the city.

The great success which attends the use of this preparation, and the unequalled efficacy of its curative properties, have induced the proprietor to offer it to the public, with the assurance that it will prove to be the most powerful and effectual remedy for the diseases for which it is recommended, of any thing yet discovered. The testimonials in its favor, which have been received by the proprietor, are of the most decisive character, and it is believed that no other medicine ever has received so many and such strong testimonials of its efficacy. The proprietor does not wish to be understood as saying that it will cure everything, but he does say that it will cure more than any other medicine, and he does say that it will do what he says it will do, viz. purify the blood and thereby cure the diseases for which it is recommended, if any thing can do so
